

Open Flame/Barbeque Policy

Persons 25 years of age or older, and affiliated with a Town sanctioned organization, may request a one-time permit for an open flame barbeque. Such permits will be for use with propane tanks only. Charcoal, debris, fire wood and/or any other combustibles are prohibited. The permit holder will be limited to one 20 pound tank per grill with one backup 20 pound tank. The permit holder is responsible for properly removing and/or discarding the grill, propane tank(s) and trash associated with the permit. Such permits are only permissible at public areas agreed upon by the Park and Recreation Commission and are prohibited in the sanctuaries, environmentally sensitive areas and/or any other open space as determined by the Park and Recreation Commission or Director of Parks and Open Space. Permits for open flame barbeques may be requested for use during the hours of 10am – dusk by Town sanctioned organizations. All cooking must end 30 minutes prior to dusk. All functions may be approved and/or denied by the Director of Recreation and/or the Director of Parks and Open Space. All parks and playgrounds rules and regulations are in effect during any such permit. The Park and Recreation may limit the number of persons, number of hours and/or may require a fire department detail officer.
